IMPORTANT SAFETY INFORMATION - READ THE FOLLOWING WARNINGS BEFORE YOU OR YOUR CHILD PLAY VIDEO GAMES

⚠ WARNING - Seizures

Some people (about 1 in 4000) may have seizures or black outs triggered by light flashes, such as while watching TV or playing video games, even if they have never had a seizure before.

Anyone who has had a seizure, loss of awareness, or other symptom linked to an epileptic condition should consult a doctor before playing a video game.

Parents should watch when their children play video games. Stop playing and consult a doctor if you or your child have any of the following symptoms:

Convulsions

Altered vision

Eye or muscle twitching

Involuntary movements

Loss of awareness

Disorientation

To reduce the likelihood of a seizure when playing video games:

1. Sit or stand as far from the screen as possible.
2. Play video games on the smallest available television screen.
3. Do not play if you are tired or need sleep.
4. Play in a well-lit room.
5. Take a 10 to 15 minute break every hour.

WARNING - Repetitive Motion Injuries

Playing video games can make your muscles, joints or skin hurt after a few hours. Follow these instructions to avoid problems such as Tendonitis, Carpal Tunnel Syndrome or skin irritation:

- Take a 10 to 15 minute break every hour, even if you don't think you need it.
- If your hands, wrists or arms become tired or sore while playing, stop and rest them for several hours before playing again.
- If you continue to have sore hands, wrists or arms during or after play, stop playing and see a doctor.

WARNING - Battery Leakage

Leakage of battery acid can cause personal injury as well as damage to your Game Boy. If battery leakage occurs, thoroughly wash the affected skin and clothes. Keep battery acid away from your eyes and mouth. Leaking batteries may make popping sounds.

To avoid battery leakage:

- Do not mix used and new batteries (replace all batteries at the same time).
- Do not mix alkaline and carbon zinc batteries.
- Do not mix different brands of batteries.
- Do not use nickel cadmium batteries.
- Do not leave used batteries in the Game Boy. When the batteries are losing their charge, the power light may become dim, the game sounds may become weak, or the display screen may be blank. When this happens, promptly replace all used batteries with new batteries.
- Do not leave batteries in the Game Boy or accessory for long periods of non-use.
- Do not leave the power switch on after the batteries have lost their charge. When you finish using the Game Boy, always slide the power switch OFF.
- Do not recharge the batteries.
- Do not put the batteries in backwards. Make sure that the positive (+) and negative (-) ends are facing in the correct directions. Insert the negative end first. When removing batteries, remove the positive end first.
- Do not dispose of batteries in a fire.

To change default settings, see page 11.

BASIC CONTROLS

- You always move forward without having to press any button. Hold down the B Button to crouch and pick up speed.
- **Ollie:** Hold down the B button to crouch; release it to jump. The longer you crouch, the higher you will ollie.
- **Nollie:** Tap the L Button to move into nollie position, then press and release the B Button to nollie.
- **Wallride:** Press the B Button to jump, then hold down the A Button when in the air near a wall, sign, building, etc.

- **Boneless:** Tap $\uparrow+\uparrow$ then press and release the B Button.
- **No Comply:** Tap \uparrow then press and release the B Button.

- **Switch Stance:** Tap the R Button to change between Normal and Switch stances.
- When falling from a Big Drop, press and hold the B Button at impact to keep from bailing.
- Hit the controller buttons repeatedly to get up faster.

TRICK CONTROLS

- When in the air, tap the L Button plus a direction on the Control Pad to do a Flip trick.
- When in the air, tap the R Button plus a direction on the Control Pad to do a Grab trick.
- To grind, press the A Button when in the air near a rail, edge, or lip. Press the A Button plus a direction on the Control Pad to perform different Grinds.
- To perform a lip trick, skate straight up a ramp or quarterpipe holding the A Button plus a direction on the Control Pad.

MAIN MENU

Use the Control Pad to make a selection. Then press the A Button or START to confirm your choice.

Choose Career Mode to start a Career where you'll skate through the levels accumulating cash and medals. You can use the cash to upgrade your stats, buy a new board, and access locked levels.

Important Note: Whenever you save your Career, you save data for all the skaters in the game. You do not need to start a New Career in order to use a different skater. Only start a New Career if you want to reset all the data in the game.

Choose Free Skate to skate through the levels you've unlocked in Career Mode with no time limit. Free Skate is a good way to get a feel for the environments, practice your tricks, perfect your runs, and learn each skater's specials.

Choose Single Session and skate all out in a two-minute session in an effort to set high scores. Build your earnings in Career Mode to unlock other levels.

Choose Options to go to the Options menu where you can adjust the volume, View High Scores, adjust game settings, and see the credits.

SELECT SKATER MENU

Choose the skater you want on the Select Skater menu using the Control Pad. Press the A Button to confirm your choice. Try every level with each skater because they all have unique skating abilities and specials. The vert skaters will get bigger air on the ramps. The street skaters have better balance on manuals and ginds. But they're all pros and every one can kick butt on a board.

LEVEL SELECT MENU

After you've selected your skater you'll go to the Level Select menu. Use the Control Pad to choose the level you want to skate. Some levels will be locked. You have to accumulate enough money in Career Mode to unlock them.

OPTIONS MENU

Select Options from the Main Menu to go to the Options menu.

Sound Levels: Use the sliders to change the volume for the music and sound effects.

Cheats: Here you can view and enable cheats that you have earned through Career Mode.

Trick Zoom: Turn the trick zoom function On or Off.

Kid Mode: If you're having trouble landing tricks, try turning Kid Mode ON. This will give you better balance and stability. Once you've got the hang of it though, turn it OFF and skate for real.

Control Setup: Use the Controls menu to modify the controller settings. The A Button, the B Button, and both shoulder button assignments can be changed. Change the configuration to what feels most comfortable for you.

Gaps Checklist: All the gaps in every level are listed here. Once you've found a gap in the game, you'll see it highlighted on this list. Find all the gaps in the game and who knows what else you might find.

Credits: Choose Credits to see the people who worked hard so you can grind and ollie to your heart's desire.

High Scores: See who's earned the highest scores in each level.

Save Career: Save Career data for all skaters and high scores for all levels in the game.

ON-SCREEN DISPLAY

The Special Bar

As you perform tricks, your Special Bar will fill up. When the Special Bar is filled and flashing, special moves can be pulled off. The full meter will decrease automatically if you don't use it, so take advantage of it. If you bail while the meter is full, you empty the whole thing. Still, you can't make an omelette without breaking a few eggs!

PLAYING THE GAME

Free Skate

Choose Free Skate if you just want to skate hard and skate long.

Free Skate is a good place to begin before you get going in Career Mode to learn the ins and outs of the levels and the best places to pull off tricks. Look for gaps and lines to increase your score.

Free Skate has no time limit, so take as long as you want to perfect your tricks, practice your runs, and learn your specials.

Career Mode

Choose Career Mode to start your professional skating career. You'll choose a skater and then you're ready to go skate. Complete goals for cash. Select Skate Shop to use some of the money you've earned in your career to upgrade your board.

Choose Edit Stats to use your cash to buy even better abilities for your skaters. Choose Edit Tricks to add to your arsenal of Special Tricks.

You can continue every skater's progress on the same career. To start a brand new career, select New Career and pick the skater you want to live with until your first victory.

Be Careful! A New Career will wipe out any existing careers when you save your New Career.

Competition levels in Career Mode require you to perform tricks to rack up points within a time limit in order to obtain medals and cash. You must qualify for any one of the medals in order to move on to the next area. Getting a medal carries a cash prize along with it. You must win gold medals in both competition levels to finish the game.

SCORING

Doing a trick the first time will give you 100% of its full point value. Each subsequent time you pull off that same trick in a level, your score decreases as the table indicates. In Free Play mode, your score for a trick will decrease subsequent times it's pulled off only if the trick's performed during the same trick string.

1st	100%
2nd	75%
3rd	50%
4th on	25%
5th on	10%

Adding spins to your moves introduces a multiplier. With each 180° spin, your score multiplier goes up. The bigger the multiplier, the bigger the score!

180°	1.5x
360°	2.0x
540°	3.0x
720°	4.0x
900°	6.0x

Grabs have a base score associated with them, however they can be held for a longer time for additional points. Manuals, grinds, and lip tricks can also be held for extra points.

Landing a perfect trick gives you 150% of the trick score, sloppy gives you 75%.

PERFECT YOUR SKATING

Riding

You will automatically move in the direction you're facing. For an extra speed boost, hold down the B Button to crouch and gain speed.

Turning

To rotate the direction you face while on the ground, hold the Control Pad **←** or the Control Pad **→**. You can adjust the speed you rotate by modifying your truck settings. (See Skate Shop on page 21.)

Remember: When you press the Control Pad **←** or the Control Pad **→**, your skater will turn to his or her left or right, not yours!

Braking

Hold the Control Pad ↓ to slow down. You will slow down and eventually come to a complete stop.

Ollieing

The most basic skateboarding trick, the ollie consists of kicking the skateboard's tail against the ground while pushing forward with the front foot (this is how skaters perform jumps). To ollie, press the B Button. The longer the button is held, the higher you will jump.

Ollieing by itself doesn't get you any trick points. There are several variations of ollieing that will boost the height of your jump and/or earn points, these are the No Comply (tap ↑ then press the B Button) and the Boneless (tap ↑+↑ then press the B Button).

Nollie/Fakie Ollie

A nollie is an ollie performed on the front of the skateboard rather than the back. To perform a Nollie press the L Button before ollieing. If you're riding switch, you will perform a fakie ollie instead of a nollie.

Spinning

To rotate your facing direction while in the air, use the ← and → on the Control Pad. The rate at which you rotate in the air is based on your skater's Spin stat. (See Edit Stats on page 22.) To perform a full 180° turn, tap the Control Pad twice in the direction of the turn.

CUSTOMIZING YOUR SKATER

Skate Shop

Go to the Skate Shop to use your cash to upgrade your deck. Use the Control Pad to scroll through the skateboard choices. Press the A Button to confirm your choice. Skateboards you can't afford will have a question mark (?) on them. Boards you can afford but have not yet purchased will have a dollar sign (\$) on them.

Select Buy Skateboard to accept that board and go to the Character Select menu.

Select Adjust Trucks to change your turning ability. Looser trucks will allow you to make sharper turns, but tighter trucks give you more control.

Edit Stats

Go to the Edit Stats menu to use the money you've accumulated in Career Mode to modify your skater's stats. Use the Control Pad to scroll through the stats and highlight the change you want.

Edit Tricks

Go to the Edit Tricks menu to spend money on specials for your skater. Your available cash will be shown. Use the Control Pad to scroll through the options. Highlight the Special you want and press the A Button to select it.

Note: You can only add a maximum of six Specials to each skater.

THE SKATERS

Tony Hawk

If you meet Hawk, look at his shins. You'll see how much flesh he's left behind becoming the most influential skateboarder in history. He lost some perfecting the first 900°. More went while creating 50+ signature moves and winning 12 world championships. The father of two boys and modern skateboarding, Tony makes his home in his native SoCal.

Bob Burnquist

Out of Brazil and onto the winner's podium, Bob Burnquist is one of today's most exciting and original skaters. Blowing minds with his unique style and switch-stance tendencies, Burnquist won the first pro contest he entered. He then went on to be the first skater to pull off an Eggplant Revert, a move now simply known as the "Burntwist."

Steve Caballero

How long has Steve Caballero been part of the skateboarding scene? Over three decades. Along the way he helped found the Bones Brigade, invented the Cabbalerial and owned his share of world records—including the highest halfpipe air and a 44-stair rail. Cab's still riding hard, inspiring skateboarding's next generation.

Kareem Campbell

East Coast, West Coast, or any coast, Kareem Campbell and his smooth metropolitan style are recognized on the real streets. Born in New York and raised in Los Angeles, Kareem defies any East vs. West barriers. When he's not skating you can find him chilling with his son, li'l Reem. Kareem's advice for skaters: "Do it for yourself and keep it honest."

Rune Glifberg

When Rune was 11 years old a friend brought a skateboard to his home in Copenhagen, Denmark. Later, a skateboard brought Rune to his new home in Huntington Beach, California (He didn't ride it. He became a pro on it.) Here you'll find the all-terrain terrorist sessioning pools and streets. But he saves his best for his true love: wide-open vert skateboarding.

Eric Koston

Who do you want to be today? Think Koston, because he rides like anybody and nobody else. He'll bust any pro's signature trick with uncanny similarity then transition into the eponymous K-Grind. Besides this move bearing his name, Eric's famous for clowning around while making challenging switch and nollie rides look like a joke.

Bucky Lasek

Hardened on the East-Coast and currently refining his skills in Carlsbad, California, Charles Michael Lasek, better known as Bucky, soars to sickening heights above half-pipes—and other skaters. He's equal parts power, originality and style. When Bucky's not dropping jaws at the local Mission Valley Skate Park, you'll find him loving life with his wife and daughter.

Rodney Mullen

Get up, shower, brush and head out and invent new tricks. Just another day for Rodney Mullen, the godfather of street skating. A pro for over 20 years, Mullen owns 35 freestyle world championships and a dizzying list of signature tricks. Like the kickflip, underflip, impossible, casper and darkslide to name a few.

Chad Muska

Out of his native Las Vegas and into skateboarding's top magazines and videos—welcome Muska. After lighting it up on the Strip, Chad moved to California at 15 and quickly became one of the most respected skaters of all time. This self-styled professional always takes his brand of skate-and-relate creativity to another level. This includes experimenting with jungle and hip-hop beats on his "Muskabeat" album.

Andrew Reynolds

Andrew's only been a pro since 1996, but what he may lack in years, he makes up for in air and guts. If you're in Los Angeles, California and you see somebody going huge over massive gaps, sessioning sick sets of stairs and doing it all with effortless style, odds are you're in the presence of Turtle Boy himself. Say "hi" as he flies by.

Geoff Rowley

Called the one-man English invasion, Geoff Rowley went from the streets of Liverpool, England to the top of the skating world. In fact, Geoff's often called the skater's skater.

He currently resides in Huntington Beach, California, where his diet consists of miles of handrails, huge staircases and lots of vegetables. Picture a 360°-flip down 13 stairs—yep, that's Rowley.

Elissa Steamer

Making the cut skating against the boys. Dominating every all-girl event she enters. Getting her name on a pro model street board. You guessed it—it's Ft. Myers, Florida native Elissa Steamer. Elissa specializes in sessioning streets and stereotypes. Now living in Los Angeles, California, Elissa skates like you wish you could.

Jamie Thomas

Originally from Alabama, Jamie has conquered some of the biggest gaps and longest rails ever seen. His video parts in "Welcome to Hell" and "Misled Youth" prove it. Jamie is the only person to walk away from the Leap of Faith with both legs intact.

GAME LEVELS

Each of the Career Mode levels have several items scattered around for you to collect. Each level will have a hidden tape. Touch the tape to collect it. If you search around, you'll also find floating items with the letters S-K-A-T-E. You don't have to collect the letters to spell SKATE in order, but grab them whenever you see them.

Sometimes you'll be able to find bonus money orbs. Grab them to add to your score.

Some levels will have special goals that you need to complete in order to advance to the next level. You may have to collect items or rack up a certain number of points. There are also items you don't collect, but do tricks on. A trick is required to "tag" the item as complete.

The Hangar, Meacham Field, TX

A hangar is built to store and service airplanes, but its size, shape, and accessories make it a perfect place to start your skating adventure. You'll have plenty of room to get awesome air and echoing grinds. If you can see it, you can skate it. You may just have to figure out a unique way to get you and your board up real high. Who says you need a plane to fly? Practice your Lip moves in the windtunnel.

The School II, Southern Cali

Southern California is known worldwide for the movie business, celebrities, and wild parties. But the population at large has no idea what's going on when the schools are closed and the skaters take over.

You can create some massive sessions on the steps and rails. When nobody's around, a school makes for one burnin' skatepark. Jump to the roof for more areas to trick it up.

Contest 1: Marseille, France

Marseille is one of the most beautiful cities in a country known worldwide for its marvelous architecture and stunning art. The skatepark in Marseille is known for its huge bowls and endless rails. Once again, if you can see it, you can skate it. We dare you to prove us wrong.

Warehouse, Troy NY

The warehouse is just as great fun as ever with rails galore and the giant halfpipe. Grind the high rails for big drops. There may or may not be some new secrets to discover. Go find out!

New York City, NY

The big city is always a terrific place to grind, if you can keep away from the cops. Streets, curbs, and benches are obvious places to skate, but don't overlook what else is there. The thing about a city is that it's built both high and low. There's a lot more surface area to grind that you'd think would fit into a square block. Good grinds are sometimes hidden up high.

Contest 2: Skatestreet, Ventura

A terrifically huge skatepark designed by people who love boardsports and dream about pools and pipes. Get huge air if you can plan ahead to build up enough speed. Don't forget to switch to mix up your tricks.
